Abstract

Additional file 5 — ChLGs before and after super scaffolding
Alignments of Tcas5.0 and Tcas5.2 *in silico* maps to consensus genome maps for all ChLGs. Consensus genome maps (blue with molecule coverage shown in dark blue) aligned to the *in silico* maps (green with contigs overlaid as translucent colored squares). Alignment to both Tcas5.2 super scaffolds (top alignment) and Tcas5.0 scaffolds (bottom alignment) are shown.

Competing interests

JMS, MCC, NH, NL, and SJB declare that they have no competing interests.
ETL, PS and TA are employees at BioNano Genomics and hold stock options.
